Amend-
ment of
section 28.

16. In sub-section (3) of section 28 of the principal Act, the words “in a Presidency-town” shall be omitted.

STATEMENT OF OBJECTS AND REASONS

The Petroleum Act, 1934 (30 of 1934), which relates to the import, transport, storage, production, refining and blending of petroleum is based on Foot-Pound-Second system. As a result of the introduction of the metric system of weights and measures, it is essential to revise the references to the Foot-Pound-Second system.

The nomenclature used in the Act for different grades of petroleum is not very satisfactory and it is considered desirable to rationalise and simplify the nomenclature in accordance with the practice obtaining in other advanced countries.

Opportunity is also being taken to enhance the penalty for the violation of the provisions of the Act and remove other minor lacunae observed in the administration of the Act.

The Bill seeks to achieve the aforesaid objects.
